Still using latex condoms or covers for transvaginal examinations?

A comprehensive study* by Australian researchers, thoroughly evaluated and assessed the integrity of probe covers and condoms in a clinical setting. The study concluded that **non-latex probe covers like CLEARPROBE® have a lower failure rate than latex condoms for transvaginal ultrasound examination.**

*Clinical publication March 2020 authored by Jocelyne M Basseal (Australasian Society for Ultrasound Medicine, University of Sydney), Susan Campbell Westerway (Charles Sturt University, Australia), Jon A Hyett (Sydney Institute for Women and Children)

ORDERING INFORMATION

Product	Description	Pack size	CFC contains
CLEARPROBE®	Endocavity / TVS Probe Cover 8.5 x 2.9 inch (216 x 75 mm)	30 Pieces	100 Cartons
Ultrasound Probe Cover	General Purpose Ultrasound Probe Cover 12 x 7 inch (305 x 178 mm)	10 Pieces	60 Cartons
Ultrasound Probe Cover	General Purpose Ultrasound Probe Cover 24 x 7 inch (610 x 178 mm)	10 Pieces	60 Cartons
Ultrasound Probe Cover	General Purpose Ultrasound Probe Cover 48 x 7 inch (1220 x 178 mm)	10 Pieces	60 Cartons
Ultrasound Probe Cover	General Purpose Ultrasound Probe Cover 59 x 7 inch (1500 x 178 mm)	10 Pieces	60 Cartons
Disposable Needle Guide	Disposable Endocavity Needle Guide Guides accept 16-18GA instruments	10 Pieces	40 Packets
